Seremban, Negeri Sembilan.

PERSONAL STATEMENT

CompTIA Network+ and Cloud+ certified Information Systems Engineering graduate with hands-on experience in IT support, network troubleshooting, infrastructure support, and business applications. Committed to delivering reliable technical support, collaborating with stakeholders, and improving business process through practical technology solutions. Recognized for strong communication, analytical thinking, and the ability to quickly adapt to new technologies.

TECHNICAL & SOFT SKILLS

- **Infrastructure & Support:** Windows Server, Linux (Ubuntu/CentOS – Fundamental), Active Directory, IT Service Operations, Incident/Ticket Management
- **Networking & Cloud:** TCP/IP, DNS, DHCP, VPN, Routing & Switching Fundamentals, CompTIA Cloud+ / Network+ concepts.
- **Database & Development:** SQL (MySQL, MS SQL Server, Oracle), PHP, Java, JavaScript, C++, Git/GitHub.
- **Tools:** Figma, Draw.io, VS Code, Postman, Advanced Excel.
- **Languages & Soft Skills:** English (Professional), Malay (Native).

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** [CompTIA Cloud+ Certified](#) | [CompTIA Network+ Certified](#) | Excel Data Modelling (HRD Corp)
- **Awards:** Gold Medalist (Innovation) – Melaka International Intellectual Exposition 2024
- **Recognition:** Best Booth Award (out of 50+ participants) – Information Engineering FYP Exhibition 2024

PROFESSIONAL EXPERIENCE

- **Network & Multicloud Training Program | Yayasan Peneraju** **Aug 2025 - Mar 2026**
Dedicated this period to full-time professional development to strengthen knowledge in IT infrastructure.
 - Completed full-time IT infrastructure training sponsored by Yayasan Peneraju.
 - Performed practical labs involving network configuration, troubleshooting, cloud infrastructure, virtualization concepts, and enterprise system administration.
 - Strengthened knowledge of Windows administration, Linux fundamentals, networking, cloud computing, cybersecurity, and IT service operations.
 - Successfully obtained: CompTIA Network+ | CompTIA Cloud + certificates
- **Business Analyst & UI/UX Prototype Designer (Freelance) | Pejabat Pilihan Raya Negeri Sembilan (PPRNS) | Mar 2025**
 - Acted as the primary liaison between cross-functional project teams and key stakeholders to analyze, validate, and prioritize complex business requirements against strict project timelines.
 - Executed requirement gathering sessions and translated business user needs into functional specifications, mitigating scope misunderstandings early in the lifecycle.
 - Developed interactive Figma prototypes and workflows to visualize user journeys, aligning stakeholder expectations and accelerating final design approvals.

- **Software Developer Intern | Jabatan Pendidikan Negeri Sembilan (JPNNs) | Sept 2024 - Feb 2025**
 - Translated business requirements into technical specifications, aligning cross-functional project goals to deliver software updates on time.
 - Designed and applied technical solutions to resolve business problems, utilizing optimization methodologies to increase operational efficiency and minimize process errors.
 - Diagnosed and resolved hardware and network connectivity issues across departments, successfully minimizing system downtime and maintaining infrastructure availability.
-

SIGNIFICANT PROJECTS

- **E-Tempahan Kenderaan Jabatan Pendidikan Negeri Sembilan (JPNNs) Sept 2024 - Feb 2025**
 - Developed a vehicle reservation system for 100+ staff, utilizing optimization methodologies that eliminated process redundancy and reduced booking time by 40%.
 - Conducted system testing across modules to improve system reliability.
 - **RIE Document Renewal Preparation Management System (FYP) Oct 2023 - Jul 2024**
 - Developed an automated notification logic (WhatsApp and Push notifications) to alert employees 3 months prior to document renewal date.
 - Drafted and documented thorough system requirements and technical specifications to ensure a seamless project handover in line with standard operating procedures.
 - Conducted comprehensive testing across system modules, achieving a 90% user satisfaction rate regarding the platform's optimization and problem-solving efficiency.
-

EDUCATION

- **Bachelor of Information Systems (Hons.) in Information Systems Engineering | Sept 2021 – Mar 2025 | MARA University of Technology (UiTM), Jasin**
 - Relevant coursework: Programming (Java, OOP, Data Structures), Database Engineering, IS Development, Networking, Web & E-Commerce Applications, IT Project Management.
